TAKE CARE OF YOUR LEATHER ITEMS

Leather has always been a favourite in every household. Its flexible and durable qualities make it long-lasting, sustainable (when you use it for long) & a timeless piece.

SPILLARD & DEAN

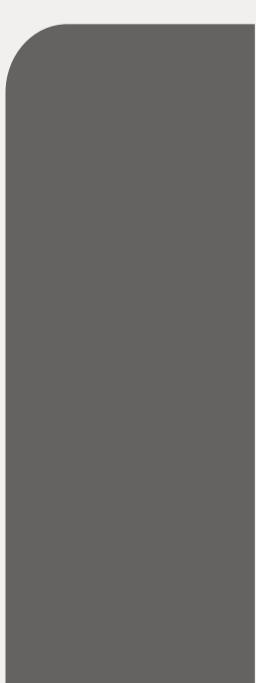

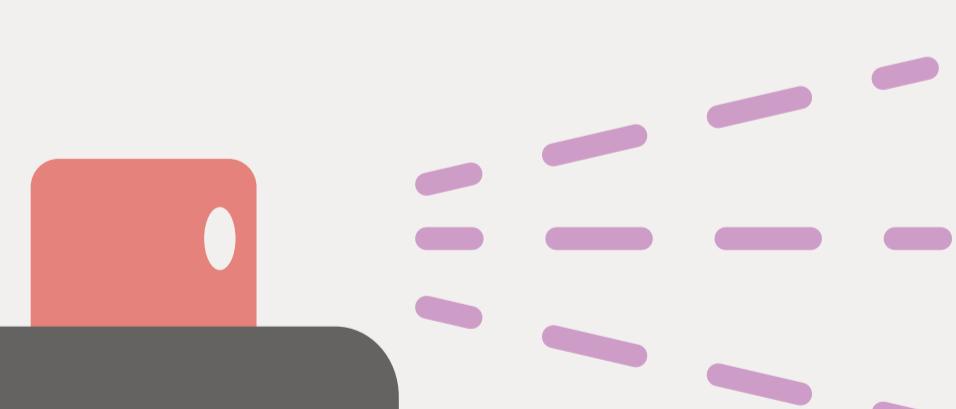

PREVENTION IS KEY

May sound cliché but taking care of your leather will help it last longer! Keep it away from sunlight and remove stains as soon as possible.

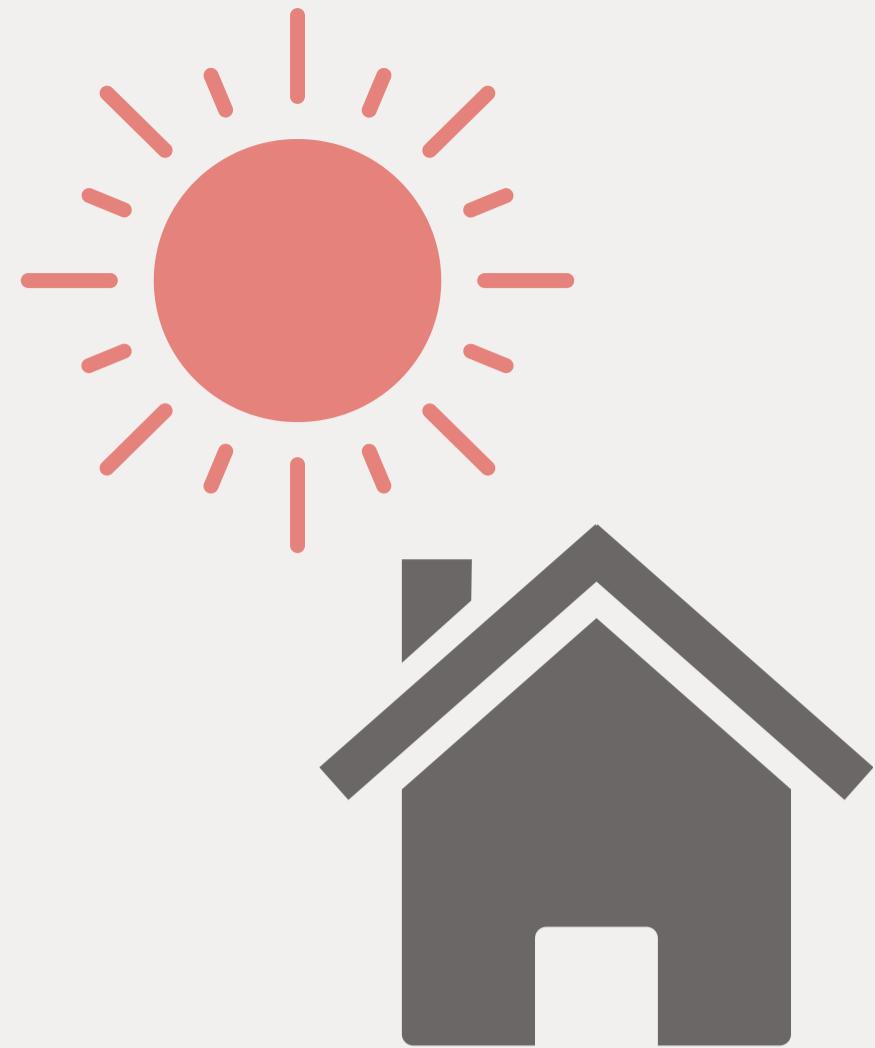

USE A LEATHER PROTECTOR SPRAY

Most leather protector sprays are made to help your shoes/bags/wallets last for longer by providing them with a protection barrier against harsh weather. These are pretty cheap and available in heaps of places.

PROTECT YOUR LEATHER

Keep your leather in a cool area, away from sunlight and on smooth surfaces. Ensure the surface is smooth and clean to protect the surface of your leather.

LEATHER CLEANING SPRAY

Use a leather spray to clean your products. These sprays are made with mild soap that don't ruin the texture of the leather.

TAKE A LOOK AT OUR SHOP

Hinterland Foil is our family-run business in Gold Coast, Australia. With a strong commitment to perfection, our personalised ethical monogrammed leather accessories are made to last for a long time! We'll let our products speak for themselves:
